Objective

Aspiring Software Engineer and B.Tech student with strong foundations in Data Structures, Algorithms, and Web Development. Seeking an opportunity at a leading organization like JP Morgan to apply problem-solving skills, build scalable applications, and contribute to high-impact financial technology solutions.

Education

Bachelor of Technology (B.Tech) in Computer Science Engineering

Expected 2027

Vignan Institute of Technology and Science, Hyderabad

Relevant Coursework: Data Structures, Algorithms, Database Management Systems, Operating Systems

Technical Skills

Programming: Python, Java, C

Web Technologies: HTML, CSS, JavaScript

Core Concepts: Data Structures, Algorithms, OOP, Problem Solving

Tools: Git, GitHub, VS Code

Databases: Basic SQL

Soft Skills: Communication, Analytical Thinking, Team Collaboration

Projects

Amazon Main Page Clone

(HTML, CSS, JavaScript)

- Developed a responsive front-end clone of Amazon's homepage, improving UI structuring and layout design skills.
- Implemented navigation bar, product listing grid, and carousel features for enhanced user experience.
- Ensured cross-device responsiveness using modern CSS techniques.

Currency Converter

(Python)

- Built a command-line based currency converter supporting multiple currencies.
- Implemented conversion logic using dynamic or static exchange rates.
- Focused on clean code practices and efficient input/output handling.

Rock Paper Scissors Game

(HTML, CSS, JavaScript)

- Designed an interactive browser-based game with real-time user input handling.
- Implemented randomized logic for computer moves and result evaluation.
- Enhanced UI/UX for better engagement and responsiveness.

Achievements

- Solved 50+ problems on platforms like LeetCode focusing on Data Structures and Algorithms.
- Strong understanding of problem-solving techniques including recursion, arrays, and hashing.
- Consistently practicing coding problems to improve algorithmic thinking and efficiency.

Interests

Full Stack Development

Problem Solving

Web Application Development
